My Website 

## ABOUT

Currently in my second year of university, studying a Bachelor of IT with a Computer Science Major. I'm a passionate learner with excellent critical thinking skills. I'm also hardworking and am able to work well under pressure. Currently focused on expanding my knowledge in the IT industry, specifically programming, picking up as many skills as I can along the way.

## EDUCATION

### WACE | Tranby College

FEB 2020 – NOV 2021

Graduated from Year 12 with two Academic Excellence Awards in both Media and Physics General.

### Bachelor of Information Technologies | Murdoch University

MAR 2022 – CURRENT

Majoring in Computer Science. Currently undergoing and commencing my second year after achieving results ranging from Credits to High Distinctions in the previous year.

## EXPERIENCE

### Volunteer | Telethon Community Cinemas

FEB 2022 – APR 2022

Volunteered at the Murdoch Community Cinema. Stood behind the counter serving food to the guests.

### Customer Service Attendant | Optus Stadium

MAR 2022 – APR 2023

Worked on event days such as AFL doing various tasks such as assisting patrons in parking areas and directing patrons to their seats inside the stadium.

## ACHIEVEMENTS

- Participated in STS Leeuwin II Youth Explorer Voyage (2020)
- Academic Excellence in Media General (Y12 2021)
- Attended the 'China Experience for WA Secondary Students' offered by UWA in 2019
- Academic Excellence in Physics General (Y12 2021)

## SKILLS

- Critical Thinking
- Communication
- Responds well to any given scenario
- Hard Working

## ACTIVITIES

I spend most of my free time programming. This will be in whatever language I feel like learning/picking up. Outside of programming languages learnt from my university degree, I have recently learnt areas of web design. I've made a personal website linked in this resume. I've also made a website for a university club I'm involved in. I am interested in many aspects of game design, from programming to creating 3D models and animation. However, this is only a hobby with no current plans to advance into that industry.

I've volunteered for my University's IT club, Murdoch IT Society (MITS). I've been on their general committee as a first-year representative in the second semester of 2022. I was also elected as 2023's Secretary for MITS, however I stepped down from the position due to personal reasons.

During my time in High School, I volunteered with the Emergency Services Cadet Corps in my school. For two of those years I volunteered, I was a Senior Cadet Leader, teaching me many leadership skills and working with a team.

In my past I've participated in competitive sports such as Gymnastics from 2007-2017 and Swimming from 2018-2021. I currently enjoy Mountain Biking in the winter just as a casual sport.
